

RAYMOND PATUNGAN

SOFTWARE QA ANALYST

Pangasinan, Philippines | +639190918052 | patungan.raymond03@gmail.com

PROFESSIONAL SUMMARY

Results-driven Software QA Analyst with 7+ years of experience in manual and automated testing, software development, CMS development, and project coordination. Experienced in testing, developing, and maintaining web and enterprise applications, including WordPress-based CMS, across finance, healthcare, and social insurance systems. Skilled in functional, regression, integration, smoke, and UAT testing, with automation experience to streamline processes and improve efficiency. Strong background in requirements analysis, project coordination, defect management, and collaboration with developers, business stakeholders, and international clients.

PROFESSIONAL EXPERIENCE

Software Engineer / Consultant, Weserv Systems International Inc. | April 2024 – April 2025

- Executed application development, testing, and maintenance activities using COBOL, Java, MySQL, HTML, JavaScript, and CSS, ensuring application functionality and system reliability.
- Maintained HR and financial systems and implemented process automation using Excel VBA and Power Automate, streamlining repetitive tasks and improving operational efficiency.
- Executed system migration and maintenance activities and validated application functionality and performance, helping ensure system stability and quality during transitions.

Software Engineer / Consultant, Weserv Limited, Japan | April 2023 – April 2024

- Liaised directly with Japanese clients and counterparts to clarify requirements, coordinate project activities, and resolve issues, supporting successful project delivery.
- Led knowledge transfer sessions for offshore team members, sharing software development, testing, and project processes acquired during Japan deployment to strengthen team capabilities and knowledge continuity.
- Executed software testing to identify defects, validate application functionality, and ensure software met business and technical requirements; developed and maintained technical and project documentation to support quality assurance and release delivery.

Mid-Level Software Engineer, Weserv Systems International Inc. | December 2017 – April 2023

- Executed manual and automated software testing using Selenium, covering functional, regression, UAT, black-box, and white-box testing to identify defects, validate application quality, and support reliable software releases.
- Delivered web and CMS solutions using WordPress and SDL Tridion, validating responsive UI functionality and applying SEO best practices to improve usability, accessibility, and search visibility.
- Led project coordination and team activities while coaching junior team members on software development and testing practices, strengthening team capability and consistency in project delivery.
- Implemented process improvements and workflow automation using SharePoint, Power Apps, Power Automate, Zapier, Make, CRM tools and Excel VBA, streamlining manual processes and improving operational efficiency.

KEY COMPETENCIES

Manual & Automated Software Testing | Functional & Regression Testing | Integration & UAT Testing | Test Case Design & Execution | Defect Management | Requirements Analysis | Test Planning & Strategy | Web & CMS Development | Test Documentation & Reporting | Process Automation | Project Coordination | Cross-functional Collaboration | AGILE / Waterfall / SDLC | Business Process & Workflow Testing

TECHNICAL SKILLS

Programming & Web Technologies: Java | JavaScript | jQuery | HTML/HTML5 | CSS/CSS3 | Bootstrap | VB/VBA | JSON/XML

Software Testing & QA: Selenium WebDriver | API Testing | Functional Testing | Regression Testing | Integration Testing | Smoke Testing | UAT | Postman

Databases: MySQL | Microsoft SQL Server (MSSQL) | PostgreSQL

CMS & Web Development: WordPress | SDL Tridion | Elementor | Gutenberg | Responsive Design

SEO & Web Analytics: SEO | Google Analytics | Screaming Frog

Microsoft Office: Excel (VBA) | Word | PowerPoint | Outlook

Microsoft 365: SharePoint | Power Apps | Power Automate | OneDrive

Project & Collaboration Tools: Jira | Azure DevOps | Git | Slack

Business & Process Automation: HubSpot | Make | Zapier

Design & Multimedia: Canva | CapCut

EDUCATION

Bachelor of Science in Information Technology

- Graduated: October, 2017

LANGUAGE

- English - Fluent
- Filipino - Native
